
Menu bar: [VPI Homepage](#)

Choosing VPI Homepage brings back to homepage of VERS and leaves the portal

Menu bar: [Map](#)

Choosing Map brings back to the starting page of the portal. All selections will be deleted.

Menu bar: [Add workshop](#)

Reserved for administrator

Menu bar: [Edit workshop](#)

Following arrays will turn up for completion:

- [Workshop Status](#)
- [Mobile Service](#)
- [Traction by RU](#)

Explanation:

[Workshop Status](#) will give general information if you are going to accept jobs currently

[Mobile Service](#) will give information if you are going to accept jobs outside of your workshop location on site

[Traction by RU](#) will give information if your workshop is being served by reception of wagons. Maintained wagons will be shunted back to service by RU.

First Login

For login please select the item [Edit Workshop](#) on the menu bar.

Enter your user ID. The user ID is your identification marking for maintenance.

If you are doing the first login the password will be the same as your user ID. Whilst the first login you will be asked to change your password by your own choice.

Update

The database should be updated at any change of the workshop status promptly and once a week per minimum. Otherwise the status of the workshop will be changed to UNKNOWN – will be shown by GREY flag on the map.

Filter / Deal with the map

General advice:

- All filters can be combined.
- For restart your search please push button [Clear Filter](#).

Selection of a single workshop

Please enter the name of the workshop at [Search Workshop](#). Please push the button [Search](#). The location of the workshop will be shown on the map and also postal address including date of last update. The status of the workshop will be shown by RED flag (Closed), GREEN flag (Open) or GREY flag (UNKNOWN - or last information is older than one week).

Database Manual
